Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

This Application has been examined. The original claims 1-6 are pending. The examination results are as follows.

Information Disclosure Statement

1. The examiner has considered the references submitted with the information disclosure statement (IDS) received 1/15/04 (see the attached form PTO-1449).

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

3. Claims 1-6 are rejected under 35 U.S.C. 102(e) as being anticipated by Inoue et al (U.S. Patent No. 6,332,024, hereinafter referred to as "Inoue").

Inoue teach a portable telephone comprising: a first operating portion 3 (the main soft key 3), which is a rotating dial capable of rotating in directions of up and down; a display unit having a display screen 2 for displaying a block 2A indicative of the first operating portion, predetermined information comprising menu with text information, and a pointer or a cursor (CG4, or CG5, etc.) located correspondingly to the selected item, or text information; controlling means 10 (the CPU 10) for controlling the display unit to shift the cursor to a desired position, and to display a mark, which is a triangular arrow, adjacently positioned above the block 2A . Inoue also teach a second operation portion, which comprises two softkey 4A and 4B arranged closely to each other, on both sides of the first operating portion 3, see figs. 1, 2, 13 and 14; col. 5, lines 27-42, lines 57-66; and col. 16, line 59 to col. 18, line 21. Claims 1-6 are therefore rejected.

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. They are U.S. Patents Nos.: 6,600,936; 6,097,964; and 5,825,353, which teach portable telephones, each having display screen and a dial wheel for providing user input using pointer and menu information.
